PROJECTS

Vehicle Maintenance and Mileage Tracker: Developed a fully responsive and intelligent web application for tracking vehicle maintenance, fuel consumption, and mileage using React, Tailwind CSS, and Supabase. Implemented features such as multi-vehicle management, automated service reminders, fuel efficiency analytics. Integrated machine learning-based predictive insights to analyze vehicle performance, detect anomalies, and optimize maintenance schedules. Focused on delivering a seamless user experience through interactive dashboards, real-time notifications, and data-driven analytics.
